Dear mom + Pop,

I'm feeling fine and dandy and I hope you all are the same.

We saw another show last night - "They Got me Covered" with Bob Hope and Dorothy Lamour. I missed that picture back there so I enjoyed it here.

I got some more French money for you, too. One is five francs, worth 10 cents and the other is 10 francs, worth 20 cents. You notice these new bills were printed in the U.S. but the old ones were made here. The punch, as you will see, let their

money keep in circulation  
until it crumples up into  
dust. This one is taped  
up like the 100 franc  
note I was going to send  
you in my last letter.  
The censor told me I couldn't  
send more than fifty francs  
in any one letter, though.

I went to the P. X.  
and got some life sapers  
yesterday and where do you  
suppose they were manufactured?  
Port Chester, New York.

That's all for now.
